For all products other than those covered by RCM invoice above and on which agent earns a commission, an invoice can be raised by the agent to Dhanhind for the total commission earned by him for the month.

The agent can download the invoice at the month end from the portal. He should then proceed to filing the GST return with the details as per the invoice. He should also upload the signed copy of the invoice in Dhanhind portal. If the return is filed correctly, the details of the invoices thus filed by the agent will be updated in the GSTR 2B (input credit) of Dhanhind by 18th of the subsequent month. Finance team will verify the uploaded invoices with the credit available and approve the same. This will be consolidated and topup to the agent will be provided in his wallet on 25th of the month (or the next working day).

Please note that if the agent does not file the GST return on the due date which is usually 10th of the subsequent month, then the credit for the same will appear for Dhanhind only in the subsequent month after which the return is filed. GST credit will be processed to the agent only after the same is reflected in GSTR 2B of Dhanhind and will be credited to the agent's wallet by 25th of the month in which Dhanhind receives credit.
